## All About Me

Hello! I'm Harmanjot Kaur, an IT professional with a passion for networking, system support, and Web development. Completed my studies in Computer Programming from Sheridan College. Currently pursuing CCNA which is prestigious network certification. I am a quick learner and have a strong desire to learn and grow in the field. I did various projects related to computer networking and web developing. I am eager to apply my knowledge to real-world challenges and continue growing as a professional.

## Skills

- Network Administration and Troubleshooting
- MS Products: Sharepoint, 365, Outlook, Intune, Excel, Powerpoint
- Programming Languages: C, Java, C#
- Operating Systems: Windows, Linux, Mac, Vista
- Virtualization: Hyper-V, VMware
- Customer Service and Technical Support

## Projects

- 
- 1. Password Security Exploration and Online Cracking Tools

Description: This project explores password security by demonstrating how weak passwords can be cracked using online tools. The experiment emphasizes the importance of creating strong, complex passwords to protect sensitive information.

- 2. Computer networking in Cisco Packet Tracer

Description: Configured network topology, routers, and switches using Cisco Packet Tracer. Set up IP addresses, line passwords, and verified connectivity via ping tests. Gained hands-on experience with CLI commands and troubleshooting network setups.

- 3. Network Configuration and Troubleshooting

Description: Configured network topology using Cisco Packet Tracer. Set up and managed routers and switches, assigning appropriate IP addresses. Applied line passwords for secure device access and management. Conducted connectivity verification through ping tests and troubleshooting. Gained hands-on experience with CLI commands for network configuration and issue resolution.

- 4. Mobile App Development Project

Description: Developed a mobile app using HTML, CSS, Javascript and JQuery. The app was designed to provide users with a simple and user-friendly interface for tracking their daily tasks and reminders. The app included features such as task creation, deletion, and editing, as well as a reminder system that sent notifications to users at specified times.
